My friend recommended me Mario and introduced him as a cheap, fast and reliable web designer. Without a problem, we agreed on a very reasonable price, basics of web sites and in the shortest period started collaboration that ran without problems until the very end of the project. As a designer who has excellent knowledge in wordpress, Mario quickly and efficiently fulfilled all my requirements in terms of appearance and function of the website and gave me absolute support in the event of further needs as well as a short course of WordPress. In any case, I am very satisfied with his work and professional approach to business and customers.
